Welcome to the 2014 Stevie® Awards for Women in Business.

For the first 10 years of this program our awards dinners filled the cozy Astor Ballroom on the seventh floor of this Marriott Marquis Hotel. This year we've moved to the big ballroom, the Broadway, one of the biggest ballrooms in New York City. It's appropriate that you will now be recognized on the big stage, because your achievements are outsized. Again this year the judges marveled at the extraordinary, inspiring accomplishments of you Finalists and your organizations. Congratulations again on your success!

This year's Stevie Awards for Women in Business received more than 1,200 entries from individuals and organizations in 22 nations. More than 160 professionals around the world participated in the judging process in September – October. The average scores of preliminary judges determined the Finalists. The Gold, Silver and Bronze Stevie Award placements that will be revealed tonight were determined by the members of five final judging committees in late October. All judges are acknowledged in this program.

At the conclusion of tonight's ceremony we'll present Grand Stevie Award trophies to the five organizations that submitted the best body of entries to this year's competition — be sure to stay till the end!

I invite you to stay abreast of what's new in the world of Stevie at our web site, StevieAwards.com, and through our presence on Facebook, LinkedIn, and Twitter.

Thank you for coming tonight. I know you'll enjoy yourself!

Cordially,

Michael Gallagher
President

Changing the world with an abacus

Machines were designed to be more efficient than man.
One man and his abacus may only equate to a small fraction of a computer's processing power.
But can a computer come up with spontaneous ideas?
Can a computer create the future?

Only man can create the future and Sum Creation Abacus Classes help develop the minds of the future generation.
